

INFORMATION PAGE : Subject to Change. Check Back Often - Version 5/15/17

LOCATION 467 Independent St, Catawissa, PA 40.905975, -76.331778 PLEASE use Caution with Map and GPS software, There are one lane, low bridge and dirt roads used by devices, We will ARROW from Rt 42

FORMAT: Sprint Enduro.

What is the Sprint Format ? It is a new format, Some call it short format National Enduros but not really. Sprints are very Flexible. Multi Class, Multi Loop, Multi Lap per Loop. Loops range from Single Trail to Extreme. There is no time keeping but there is a time limit to complete all tests /loops. Riders are responsible to keep track of there loops/laps and time. All required loops must be completed in the allowed time frame. If a rider does NOT complete their last lap before the time expires that lap Does NOT Count. Same if you do more laps than required, the later laps DO NOT Count and can time you out if all loops are not complete in time.

LOOPS: There are normally 2 Loops or more for Adults and 1 -2 Loops for Youth, Each loop can vary from 5 to 15 Minutes to Complete.

Each Class will be required to complete a certain amout of Loops with a certain amount of laps in each loop. All Required Loops must be completed under the Max Time limit for each event.

HOW it comes together: Race Day, You sign up for appropriate AMA/ECEA Class.

Riders meeting is 15 min Prior to Start Time.

Each Loop/TEST will have a Check in and Check out., You will be given the amount of laps in each Loop/Test you are required to complete with in a Time Limit.

All Check In sections will be open at the same time. The rider ran choose any order to Start and complete loops.

The rider should not wait long at Check In and move to the next Check In will the shortest line of riders to make sure you manage your total time. Travel in Pit areas with caution and courtesy to each rider.

For EXAMPLE. Class AA 3 loops. 3 laps each Loop. 210 minute time max

1pm (13:00) Start Time

Stage for Check in at Loop1 , Check in at 13:03, Check out 13:09, Take 5 min ..rest

Stage for Check in at loop 3 , Check in at 13:18, Check Out 13:28, got right to Loop 2

Stage and Check in Loop 2 13:34, Check out 13:45. Take 10min rest

THESE 3 LOOPS took 55 minutes,, Repeat this process 2 more times. Total Tome 165 minutes out of 210.

This will would be our fastest overall guy. Others can add 2-3 minutes to each lap. That is another 20-30 min to complete...

Each Loop will be defined by Different Color Arrows at this event. There is a Check in and a Check out for each loop. These Loops are located within 50 yards of each other, **PLEASE WALK PIT AREA and learn the Check Locations. 2 way Traffic and crossing can occur, PROCEED SLOWLY in pits.**

Riders racing and not traveling slow in Pits will be DSQ ,No questions, NO Debate
