What is this ECEA Enduro Series Sprint?

The Sprint Format was adopted into the ECEA almost 4 years ago as an alternative event for clubs. In 2017 HMDR held it's the first ECEA Sprint Enduro as a test bed. The ECEA Youth Jr Series has run this format for a couple of years. In regards to an old school time keeper Enduro, the Sprint has little in common but to a Check in / Check out or restart format Enduro, the Sprint has some similarities. The Sprint is basically a set of special tests run without transfer sections or time keeping, all being located is a central staging area.

HMDR runs 3 Loops or test sections in a clover leaf layout to keep everyone organized. At HMDR the sections vary from 2.8 miles to 3.7 depending on weather. HMDR is real PA enduro single track with a couple log roads for a break. We will run a mixed set of Loops, we call them Red, Blue and Orange. Red is easiest and used by our Youth. Loop times can be from 7 min, 10min to 20 min. Riders will run multiple loops depending on class in any order they wish. There is a time limit set to finish all your loops. It is based 3 or 3.5 hours from when you started. So you have to keep track of time and laps from the electronic scoring. 2 large displays are in the staging area. Last year most guys had enough time to finish. There is plenty of seat time at this sprint.

Now for the specifics of this event
